

JC Classified Staff,

You are invited to a sustainability event next Thursday. We moved the time to later in the afternoon for the first time so more students and staff would be available to attend. Please come afterwork to show us your support and bring some work friends. Please share the e-flyer below with any friends and family who love these events. Thank you. Guy Tillotson

Thursday, October 12, 4-6PM

Santa Rosa JC quad

We are hosting our second fix-it fair and have expanded the event to a “green living fair” in order to provide an opportunity for local orgs to table and communicate their mission of sustainable living to others. We will have demonstrations, fixing stations, and informational tabling. Cosponsored by Zero Waste Sonoma and Reuse Alliance.

There is a repair sign up via the Reuse Alliance site so you can bring something from home to get fixed for free!

<https://www.reusealliance.org/events/green-living-fair-repair>

If you would like to have an household item repaired, please sign up online BEFORE the event.

- Search “reuse alliance”.
- Click on “Events”.
- Choose “Green Living Fair”.
- Click on the orange link for “registering” an item.

GREEN LIVING FAIR and FIX-IT FAIR

Thursday, October 12th, 4-6 PM, Central Quad

Santa Rosa Campus, 1501 Mendocino Ave, Santa Rosa

SRJC is hosting an event to gather all who are inspired to teach ways of living a more environmentally sustainable life. Primarily, this is a fix-it fair with an emphasis on reuse, but we will have tabling for a variety of sustainability topics including: transportation, zero waste, food and menu choices, home energy, gardening and composting.
